

9.2 ECONOMIC DEVELOPMENT

Short & Structured Questions

PP/DSE/II/16(b)

Figure 7 shows the Human Development Index and GDP per capita of China and Egypt in 2009.

Figure 7

- Suggest **TWO** reasons to explain why China has a significantly higher Human Development Index despite having a similar GDP per capita to Egypt. (4 marks)
- The GDP per capita of China increased sharply in the last decade. Explain with **TWO** reasons why the increase in the GDP per capita may overstate the improvement of general living standard. (4 marks)

2012/DSE/II/15(d)

The Human Development Index (HDI) of Country B increases after trade.

- What does HDI measure?
- Suggest **ONE** possible reason for such an increase.

(4 marks)

2013/DSE/II/14(b)

Refer to the following information about Hong Kong and Japan in 2011 and answer the following questions.

	Human Development Index rank	Gross National Income per capita rank MINUS HDI rank
Japan	12	11
Hong Kong	13	-4

- Which place had a higher Gross National Income per capita in 2011? Show your workings.
- State **TWO** possible reasons why Japan had a higher HDI rank than Hong Kong in 2011.
- Suggest **ONE** government policy that could raise Hong Kong's HDI rank.

(6 marks)

2014/DSE/II/14(d)

The production possibility frontier of Country A has shifted out due to changes in government policies on human capital. Suggest **TWO** such possible policy changes in Country A. (4 marks)

2015/DSE/II/14(e)

After the country's opening up for trade, its Human Development Index (HDI) has risen.

- (i) Give **ONE** reason why international trade can lead to a rise in HDI. (1 mark)
- (ii) Despite the rise in HDI, the residents in the country generally agree that the living standard has declined. Suggest **TWO** possible reasons to explain their view. (4 marks)

2016/DSE/II/15(e)

The census statistics report of Country A warns that the country would suffer from brain drain, i.e. many residents with a high education level migrate to other countries.

- (i) Explain **TWO** effects of brain drain on the economic growth of Country A. (4 marks)
- (ii) In the light of globalisation, suggest **ONE** policy the government of Country A could adopt to relieve the problem. Briefly explain your answer. (2 marks)

2017/DSE/II/15(c)

The following table shows some data of Country A. Country A opened up to international trade after 2000.

Year	1990	2000	2010
Per-capita real GDP (in US\$)	2 950	3 000	3 600
Human development index (HDI)	0.67	0.68	0.68

With reference to the above table, explain how international trade affects

- (i) the economic growth of Country A. (2 marks)
- (ii) the economic development of Country A. (2 marks)

2018/DSE/II/15(d)

Explain whether the following policies would result in an increase in a country's Human Development Index (HDI).

- (i) The government closes down environmentally harmful power plants and factories. (3 marks)
- (ii) The government grants citizenship to all illegal immigrants so that they can stay and work in the country legally. (3 marks)

2022/DSE/II/3b

Refer to the following data about Country A.

Year	2019	2020
Per capita disposable income	\$15 000	\$20 000
Gini coefficient (based on household income)	0.51	0.56
Gini coefficient (based on household disposable income)	0.51	0.44

- (b) Based on household disposable income, did income inequality of Country A improve or worsen in 2020? Suggest **ONE** policy which may have caused such a change. (2 marks)
